## MANURE IMPROVES THE SOIL

Important, Especially in Garden Operations, That Fertilizer Be Rotted or Composted.

Manure adds plant food to the soil, and it also improves the texture or physical condition of the soil. This latter effect is often its greatest value. If one wants mere plant food alone, he may often do better to add it in

some more concentrated form. It is important, especially in garden operations, that the manure be rotted or composted. This is accomplished by letting it decay in piles. The compost pile should be flat on top and from 2 to 5 feet high. Cow manure is the most desirable for garden or house plants. It does not burn or lose its strength, and may be kept for a number of years if piled under shelter, becoming more available each year. It mixes well with soil and leaf mold. When once rotted, this manure is very lasting and easily assimilated by plants.

## STRIDES IN EGG PRODUCTION

Delaware Station Poultrymen Confronted With Hen Which Laid 314 Eggs in 365 Days.

Not very many years ago the 200-egg hen made her appearance. She was not greeted with open arms by poultrymen, but was rather considered to be a freak—an exceptional being that would not perpetuate her kind. Her cool reception, however, was no more than over before the 200-egg hen became a "common" occurrence. In the four Missouri egg-laying contests 249 hens (or 10%) laid 200 eggs or over. The individual record last year went to a Buff Wyandotte with 247; in the Connecticut contest, a Rhode Island Red laid 257 eggs in the same period.

But with the close of the Philadelphia-North American contest at the Delaware station poultrymen are confronted with a hen which laid 314 eggs in 365 days; Oregon hens have also produced over 300 eggs in a year. How is the 300-egg hen being received? Almost in the same way as was the 200-egg hen. Wonderful strides have been made and will be made to get high producers. But the real problem before poultrymen is to perpetuate the egg laying qualities which have been developed. The 300-egg hen may soon be classed in the same way that the 200-egg hen was classed a few years ago.

Poultrymen may well be proud of what they have accomplished, but they cannot rest satisfied until they perpetuate the desired qualities. And that takes years of experience and careful selection.—Orange Judd Farmer.

## Rheumatic Pain Stopped.

The drawing of muscles, soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thank you for what your remedy has done for me."—James S. Ferguson, Philada., Pa. Sloan's Liniment kills pain 25c at Druggists.—Advertisement.
